

THE BLAVATSKY ALLIANCE

(DECLARATION OF PURPOSE)

(Condensed Version)

TO UNITE IN COMMON ENDEAVOR all who are dedicated to human Progress towards Universal Enlightenment and Universal Brotherhood, all who willingly labor to preserve for Humanity a Path of escape from wastelands of spiritual poverty and mental servitude, that offer no rational insight into the ultimate significance of Consciences, Life and Being hence, no natural incentive for personal morality or self-responsibility;

To work with all who, so laboring individually or collectively, remain ever vigilant in opposing any and every Human-degrading superstition, whether of credulity or incredulity, whether of theological dogma or dogmatic materialism, whether of priestcraft or pseudo-science or science so-called;

To join, by free association, with individuals, and, by voluntary affiliation, with independently-organized local study-groups and information centers, world-wide, who share this same dedication and vigilance;

To assist, channel and direct by central impetus this common endeavor into one unified, national and international program actively disseminating and defending exclusively;

First, the ethical, philosophic, religious, and scientific Teachings of immemorial Occult Wisdom, Primordial Buddhism (the Universal Fount of Eternal Light at which, since the beginning, every Great Teacher and Avatara has re-lit the Torch of Truth whose beams suffused the pristine dawn of one or another great World Religion before being smothered beneath later rites and dogmas; and sparks of which may be seen now and again, however fitfully or dim, or

the highest peaks of human thought reached by the wisest theologians, philosophers, scientists and thinkers of every age), together with:

Second, the sum of evidence for the special series of purposeful, paranormal demonstrations related to and supporting the reality both of these Teachings and of the extraordinary (but not supernatural) faculties employed in the Service of Humanity by the Master-Adepts of this Wisdom, occult powers which, as a natural heritage, are at least latent within everyone of Humankind;

And thus, to disseminate and defend only these Teachings and these demonstrations as they are on public record as having been put forth prior to May 8, 1891, by the Trans-Himalayan Brotherhood of Arhats, Boohissatvas, Mahatmas—the Gurus and Guardians of the White Path of Shamballa—, through the compassion, initiative, living agency and untold personal sacrifice of one of that Great Brotherhood’s Chiefs (A Chohan), Centennial Messenger to the Occident and Avatara of the New Age, the greatest wonder-working public Teacher of the last 2,000 years, one known to the world as Helena Petrovna Blavatsky (Madame Blavatsky, 1831-1891), whose Mission, Message and Magick provide the solid bedrock of Truth upon which this and future generations best can build a living temple of devotion to the grandest Ideals of Humankind, an enduring way-station for every lonely, weary pilgrim on the Path to realization of those Ideals— Ideals, and dedication to which, alone can save Humanity from untold horrors that would thwart its True Destiny and imperil even its continued existence upon this globe.
